DETAILED ACTION

Response to Amendment

Applicant's amendment filed March 23, 2005 has been entered. The finality of the last Office Action is withdrawn. Currently, claims 4-6, 11-13 and 17 are under prosecution.

The indicated allowability of claims 4-6, 11-13, and 17 is withdrawn in view of the new grounds of rejection that follows.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

More specifically, claims 11 and 6 are indefinite because the cyclodextrin derivatives are not clearly defined. In particular, the term "cyclodextrin derivatives" is non-specific and would embrace all derivatives of cyclodextrin, which would include the inclusion complexes of cyclodextrin and inclusion complexes of cyclodextrin derivatives. Hence, claim 11 appears to contain overlapping subject matter in the Markush group. Also, claim 6 is indefinite for the reasons previously stated and, this claim sets forth that the cyclodextrin derivatives can be selected from inclusion complexes formed from cyclodextrins or said cyclodextrin derivatives. Accordingly, the metes and bounds for which patent protection is being sought are not clear.

Art Unit: 1774

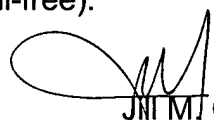

Claims 4-5, 12-13, and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

No claims are allowed.
